# ***Experience in Kenya with the System of Rice Intensification (SRI) in the Context of Water Scarcity and Climate Stresses***

**Bancy Mati**

**Thursday, Feb. 1, 2018**

**12:20 -1:10 PM**

**100 Mann Library**

*Refreshments provided*

Bancy Mati is director of the Water Research and Resource Center (WARREC) at Jomo Kenyatta University of Agriculture and Technology in Nairobi, where she is a professor of land and water management within the department of Biomechanical and Environmental Engineering. She holds a PhD degree in Rural Land Use and Geographic Information Systems (GIS) from Cranfield University, in the UK, a MSc in Land and Water Management, and a BSc in Agricultural Engineering from the University of Nairobi.

Prof. Mati has served previously as executive director of IMAWESA network supported by IWMI for Improved Management of Agricultural Water in Eastern and Southern Africa. She has been the leading force behind introduction and evaluation of the System of Rice Intensification (SRI) in Kenya, starting with the Mwea irrigation scheme with remarkable success. With support from the National Irrigation Board, she has been training thousands of farmers also in the Ahero, Bunyala, West Kano and South West Kano irrigation schemes.

Co-sponsored by SRI-Rice and the Institute of African Development (IAD)
